Site is a compound or facility with an official purpose in an open, wide, cool setting near water. Many bldgs in compound. People are "assigned" there. There are compartmented areas/~~sub~~buildings, which in + of themselves are also compartmented. Some technical, electronic equipment serves a auxiliary purpose. People in white w/bright lights are working on something with a hole in it to the inside where parts are. People are using intricate, precise tools to work on the parts.
